Progression Table

Progression Indicator	Knowledge	Skills
Excelling	I know that BC and AD are separated by large amounts of time and that 100 BC is older than 1 BC. I know where all time periods belong on a timeline. I know that different sources can be categorised into primary and secondary sources. I know that centuries and dates are different, for example the 15th century is the 1400s. I know the different natures of sources.	I know all definitions of chronological vocabulary. I can place all time periods in chronological order. I can place all historical events in chronological order based on their dates. I can distinguish the difference between all primary and secondary sources. I can accurately place dates with the correct century. I can distinguish the difference between the nature of sources.
Advancing	I know that some measurements of time have different values. I know where different time periods go on a timeline. I know that different sources can be categorised into primary and secondary sources.	I know most definitions of chronological vocabulary. I can place most time periods in chronological order. I can place most historical events in chronological order based on their dates. I can distinguish the difference between most primary and secondary sources.
Securing	I know what BC and AD mean. I know what a primary and secondary source is. I know that different periods of time have dates.	I know some definitions of chronological vocabulary. I can place some time periods in chronological order. I can place some historical events in chronological order based on their dates. I can distinguish the difference between some primary and secondary sources.
Beginning	I know that time is split into different time frames. I know that time is split into different named periods. I know what a primary source is.	I know one or two definitions of chronological vocabulary. I can place some time periods in chronological order.

		I can place some historical events in chronological order based on their dates.
